

# “INTIFADA”

literally means uprising

but practically  
means this...

## Do we really want to “globalize the intifada”?

- *During the second intifada suicide bombers killed 1137 Israelis including 119 children in attacks like the one pictured above.*
- *How do you think Jews on campus feel when they hear calls for Intifada?*

**Please keep our university a safe  
environment by choosing to use slogans  
that are not inspired by violence**
